

FIXUS88 BASIC

Lightweight, Minimal and Modular

BASIC FUNCTIONALITY

The FIXUS88 Basic is a lightweight addition to the *FIXUS88 Reconstruction* series. This addition can be used stand alone as a basic reconstruction configuration, or in combination with all *FIXUS88 Reconstruction* parts. Due to state of the art materials the assembly is ultra lightweight.

FEATURES AND BENEFITS

- Modular system, combine or expand with FIXUS88 Reconstruction
- Ultralight materials
- Radiolucent carbon fiber rod allows complete fracture visualization
- Indefinite distraction
- Familiar and easy to use
