

INTEOS[®] - Calcaneus Plate 3.5

Advantages of the INTEOS® Calcaneus Plate

The INTEOS® calcaneus plate design showcases the latest insights into repositioning and stabilization of fractured calcanei, based on the **tried-and-tested fixed angle and polyaxial plate-screw-connection** by Hofer-medical.

Product features

- The plate dimensions and geometry are based on over 100 precisely measured calcaneus bones
- Secured repositioning result through stable plate geometry, chosen based on calculations from flux trajectories
- Optimal support of joint surface as a result of the alignment of the plate holes
- Precise placement of screws supporting the posterior joint facet in the sustentaculum tali
- minimized protrusion of screw head in order to avoid irritation

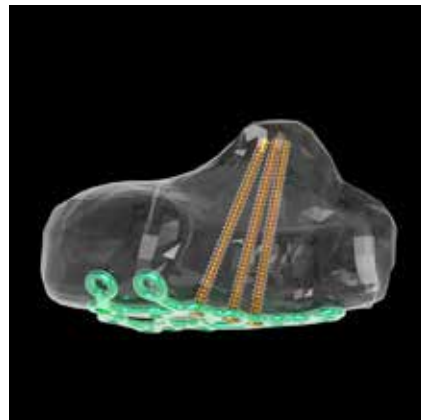

Screw features

- compatible INTEOS® 3.5 mm locking screw
- Multi-directional, rounded screw head with locking function (fixed-angle & polyaxial)
- non-invasive screw tip
- „stick fit“ - the stable INTEOS® connection between screw and screw driver blade
- ForceDrive No 10 - screw driver technology

INTEOS® - the multidirectional fixed-angle screw system standard for small fragment screws

Stable anatomic design for safe preservation of repositioning

Optimal support of joint surface through special alignment of plate holes

Innovative targeting instrument for correct screw placement

creating partnership

For us, a partnership is the result of a long and happy relationship in all areas of our work. Reliable bone healing for patients, optimal handling of the systems for surgeons and surgical personnel, as well as the simple preparation of the instruments, constantly strengthen this partnership.

For us, "creating" means more than just finding solutions in the form of innovative products.

It is the result of high standards, constant development, innovative products and excellent service for patients, surgeons and surgical personnel around the clock.

Please do not hesitate to contact us if you have questions about our company, our employees or our production methods.
